

# We cover that!

Motorsports eligibility at a glance through AMsuite®

## Standard bike

Mostly used for transportation with upright seating position, lower bars. Lower performance, lower repair costs.

## Cruiser

Medium-weight bike, factory made, but a custom-built look and feel. Feet and hands in upward position.

## Touring

Heavier, fully accessorized design with windscreen and generous storage. Relaxed seating for long-range trips.

## Sport touring

What a sports car is to the family sedan, a sport touring bike is to a touring cycle. Comfort and accessories exchanged for tighter handling.

## Dirt bike

Light weight chassis with high clearance support off-road trail riding or motocross.

## Dual purpose

Heavier than dirt bike, and higher center of gravity. Street legal with lights, mirrors, instruments and signals.

## Classic/vintage

1985 model or older. Collectable status, fits into many classes.

## Custom/limited production

Not a mass production unit. Could be unique, a limited run, or a modification. Distinctive look and high repair cost.

## Trike conversion

Production cycle customized to include a third wheel in rear. Distinctive look and high repair cost.

## Reverse Trike

The dual wheels are in the front.

## Electric motorcycle

Battery powered. Fits into many classes.

## Moped

Light weight with a very small engine, gas, or electric. Can also be manually propelled like a bicycle.

## Scooter

Light weight, lower speed urban transportation. Upright seating, floorboard, some storage capacity.

## Electric bike

Essentially a bicycle modified with supplemental, battery-powered propulsion to help on slopes.

## Additional program classes

### All-terrain vehicle, ATV

Off-road, recreational unit with 4-wheels (3-wheels not eligible). Single passenger.

### Golf cart

Smooth surface, off-road transport for two or more and/or equipment. Open body.

### Utility-task vehicle, UTV

Off-road, work-use with 4-, 6- or 8-wheels. Two or more passengers and/or cargo. Cab can be enclosed.

### Neighborhood electric vehicle, NEV

Battery electric, personal transportation vehicle with top speed of 25 mph. Not an electric car (such as a Chevy Bolt or Honda Fit).

### Snowmobile

Recreational or work-use winter transportation. Equipped with runners and caterpillar tracks.
